

ZACHARY VIVIAN

507 Bray Street, Dodgeville WI | 608-574-0816 | zacharycvivian@icloud.com

PROFILE SUMMARY

I am going to be graduating University of Wisconsin - Platteville May 2024 with a degree in Cybersecurity and a minor in Business Administration. I am interested in learning penetration testing or incident response to protect your company from potential threats and vulnerabilities. I am a fast learner and am interested in using intrusion detection and prevention systems to analyze threats and prevent from future attacks by implementing security protocols.

PROFESSIONAL SKILLS

Problem Solving Analytical Mindset
Communication Dependable
Adaptable Attention to Detail

TECHNICAL SKILLS

React, CSS, HTML C/C++, Java, Python
Proxmox VE, Docker Windows + 365
MongoDB, MySQL MacOS, Linux

EDUCATION

Bachelor of Science, Cybersecurity 2019-2024

The University of Wisconsin - Platteville

I am graduating Platteville in May 2024 with a major in Cybersecurity and a minor in Business Administration. Involved in Cybersecurity club, where we work together on CTF's and discuss new technologies and popular events in the field.

Senior Project

Our senior project requires us to combine all of our previous knowledge on the software development life cycle and development and apply it to a real-world scenario where our class is developing virtual machine labs for professors and students to use in the future. My team in particular is working on creating manageable containers and pre-configured Windows and Linux virtual machines for professors to assign students labs and automatically grade them, using Proxmox VE.
